Company History

- ✓ **1976:** YI-CHING SPECIAL PRINTING CO., LTD. was established, primarily producing color packaging paper boxes.
- ✓ **1987:** Invested in a sticker factory, specializing in the design and manufacture of fine stickers for export to Europe and the United States.
- ✓ **1995:** Relocated to Yongkang Industrial Zone in Tainan County, implementing integrated operations.
- ✓ **1999:** Achieved ISO 9001 quality assurance and management system certification.
- ✓ **2002:** Introduced the first new German Heidelberg six-color printing machine.
- ✓ **2005:** Implemented Kingdee ERP enterprise management software for comprehensive information management.
- ✓ **2006:** Introduced Kingdee SFT plant tracking system to enhance process tracking management.
- ✓ **2007:** Introduced the first new German Heidelberg UV five-color printing machine.
- ✓ **2008:** Invested in an international trading company specializing in the import and export of various DIY products, mainly sold to North America.
- ✓ **2009:** Established a design department to offer not only OEM services but also ODM services. Achieved ISO color standard certification to enhance color data management.
- ✓ **2013:** Upgraded Kingdee ERP and SFT management systems, enhancing information management. Achieved FSC Forest Certification, supporting forest conservation and contributing to green production.
- ✓ **2014:** Introduced the second new German Heidelberg six-color printing machine. Purchased a new plant in Xinshi District to meet the needs of long-term development.
- ✓ **2017:** Introduced small color digital printing machines, print inspection machines, CTP publishing machines, and window patching machines.
- ✓ **2019:** YI-CHING's annual revenue grew by over 10%, and all employees were rewarded with a trip to Japan.
- ✓ **2023:** Introduced a new Heidelberg five-color printing machine and Heidelberg's fourth-generation image management system, enhancing color printing technology and color management capabilities. Recertified for FSC Forest Certification.

Company Vision

YI-CHING SPECIAL PRINTING CO., LTD. aims for steady growth and progress, focusing on quality improvement and technological innovation. Our vision includes:

Innovation and Transformation

Adapting to global economic changes, we successfully transformed during the pandemic by adding new export items and innovating materials, packaging, and applications.

Quality and Safety Certification

We spare no effort in meeting customer needs, obtaining various certifications and inspections to grow, broaden our horizons, and align with international standards.

Expanding Space and Upgrading Equipment

Although our expansion plan was halted due to the pandemic, we fully utilize our new plant to improve storage and introduce new German printing machines to enhance quality and efficiency.

Talent Development and Team Building

We actively plan for technical succession by rehiring retired technicians to mentor new employees, implementing department rotation plans, and cultivating professional talents to meet industry regulations and customer needs.

Continuous Social Responsibility

Committed to eco-friendly practices, we use sustainable materials and technologies to ensure environmentally friendly operations while protecting customer and consumer interests.

Service Advantages

Professional Prepress Services

Our prepress department provides expert advice on paper quality, manuscript preparation, post-processing, and sampling, ensuring precise fulfillment of customer needs.

Customer Satisfaction Guarantee

We prioritize quality assurance, efficiency, and customer satisfaction, continuously improving our services to ensure customer happiness from digital sampling to pre-shipping inspections.

Integrity and Transparency

We value long-term customer relationships and maintain transparency in all transactions, never making false promises or deceiving customers.

Employee Training and Development

We focus on enhancing our employees' professional skills and personal growth through regular educational training and a technical succession plan, ensuring they are equipped to provide exceptional service to our customers.

Eco-friendly

We use eco-friendly materials and actively invest in eco-friendly packaging and paperless operations, supporting national environmental policies and promoting sustainable operations.

Production Process

Heat Transfer Materials

Export Business: Special Heat Transfer Vinyl Products

YI-CHING SPECIAL PRINTING CO., LTD. offers heat transfer vinyl products that can add a unique charm to your designs. These products are suitable for cotton, polyester, blended fabrics, spandex, Lycra, and more. Whether for professional crafting or home DIY enthusiasts, the easy cutting, weeding, and heat transfer process will allow you to perfectly customize T-shirts, dresses, sweatshirts, jackets, pillows, backpacks, and more. They are perfect for creating special gifts for birthdays, Christmas, anniversaries, and other special occasions. Unleash your creativity and showcase your design talent!

Product Specifications:

Material

100% eco-friendly PU material, avoiding traditional PVC to reduce environmental and health hazards.

Compatibility

All heat transfer vinyl materials are perfectly compatible with various cutting machines and easy to operate.

Easy Operation

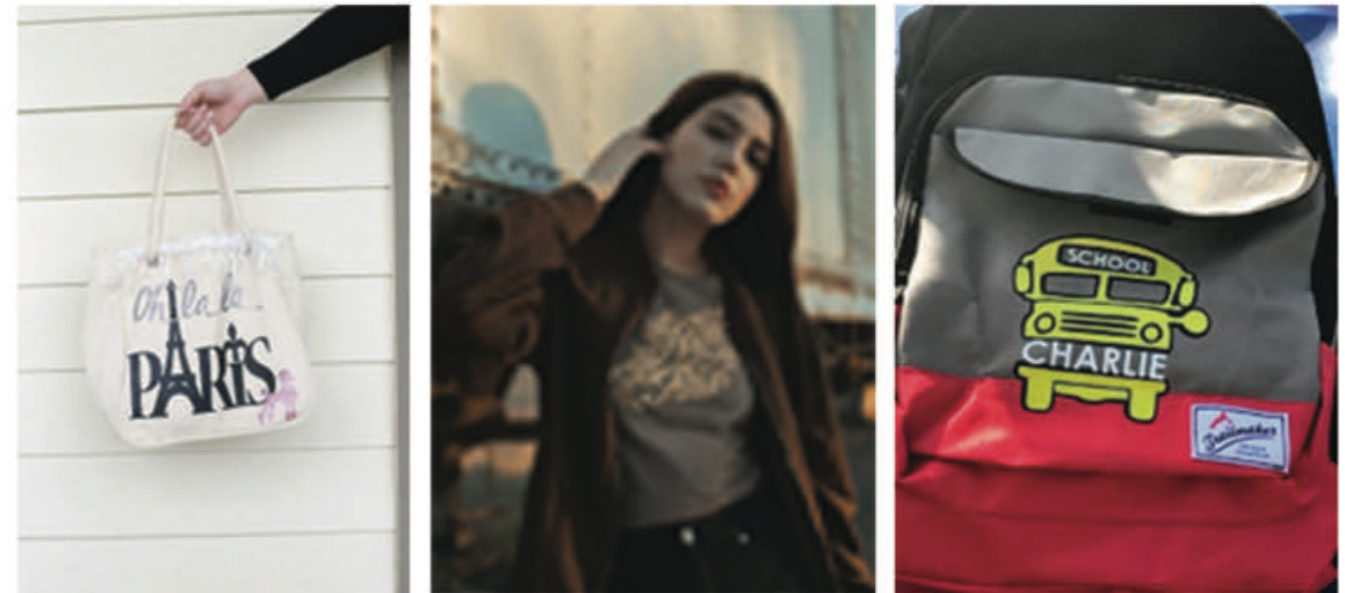

Using heat transfer vinyl materials, processed through a cutting machine or mold, cut according to the design's mirror function to ensure no overlapping. This allows you to create unique designs or add personal names or emblems, making each product one-of-a-kind. Increase precision. Use a thin layer of protective material before heat pressing, iron at medium-high temperature without steam.

Flexible Application

Suitable for creating various personalized gifts and apparel, such as sneakers, baseball caps, pencil cases, backpacks, fabric tote bags, fabric home decor items, and more.
